I negated the helicopter in formation the  
of the speed, and I have never seen a  
plane stationary in midair, nor near so sharply.

This stays in my mind because I ....  
was so afraid the blood seemed to drain  
from me.

I was alone, [redacted] and his  
brother visiting from Scottsdale, Arizona  
had gone to the fights that evening.

I assure you I am a completely respon-  
sible person, as is my husband.

Respectfully,

Dear Sir:

At the suggestion of the L.A. Police Dept.  
I am sending you the facts of an event of Thursday  
May 28, 1964, sometime past 9:30 PM.

From my 5th floor apt. just below Sunset  
Strip in L.A., as I stood at my window, I  
thought I saw a giant plane heading  
for the building. There were three lights.  
thus: ○ ○ ○. I considered it was flying  
low because of a fog, surely it was off  
course because we are not in an air lane.

I thought of New York and the Empire State  
building crash and thought to run into  
the hall to alert the tenants. I was frozen  
with fear however - and could not move.

Of a sudden I realized the lights were  
now stationary, having approached at a  
high speed. However in the blink of an eye  
they veered off at practically a right angle  
toward Santa Monica and again stayed  
stationary, then disappeared. ○, ○○○  
○ →

The color was as a glow or fluorescent  
orange-red and a greenish glow.
